The University of Tennessee at Martin
Bachelor of Science in Natural Resources Management (with a major in NRM)
Park Administration Concentration (program 1151)

Overview
The park administration curriculum is designed for students wishing to work in natural resources and with people who use these resources for recreational purposes. This program offers professional careers for students who recognize the value of parks and recreation in our everyday lives and the benefits of organized recreation programs. The park administration curriculum prepares graduates for a diversity of career possibilities.

Career Opportunities
Although competition is keen, students graduating from this program are competitive and prepared to enter professional careers with public agencies such as: National Park Service, Corps of Engineers, Armed Forces, Forest Service, Bureau of Land Management, state parks, large and small city parks, county and regional parks, and recreational agencies. Employment with non-profit organizations such as church groups, scouting, boys’ clubs, girls’ clubs, and young men’s and women’s Christian associations, and zoos are also possibilities. Students interested in pursuing a career with the private sector may seek employment with such organizations as Disney, Six Flags, Busch Gardens, Sea World, private zoological parks, travel agencies, private outfitters, private guide services, cruise operators, and concessionaires working on public land. The park field is large and diversified. It is the policy of our staff to aid students in their efforts to find both seasonal and permanent employment.

Facilities
UT Martin has one of the most beautiful campuses in the state. It is comprised of 900 acres of land, which includes mature shade trees and floral gardens. Instruction is not limited to the campus. Numerous field trips are made to visit the wealth of natural resources and park and recreation organizations in the region. Reelfoot Lake State Park and Wildlife Refuge, Paris Landing State Resort Park, Natchez Trace State Park, the Land Between the Lakes Recreation Area, Shiloh National Military Park and Fort Donelson National Monument are just a few attractions in the area. The regional studies course has taken students on two-week treks as far as the Everglades, Gettysburg, Yellowstone and Grand Canyon national parks. Modern classrooms and laboratories and numerous computer facilities are also available for student use.
