Updating Echo360 PCAP for the MAC

Sign up for your Personal Capture account at the ITC website - http://www.utm.edu/departments/itc/Echo360.php, and choose "Sign up for an Echo360 Personal Capture (PCAP) account." (Note you must provide the Course ID of the course into which you want the recording published, adding additional ones in the Comments section.)

Once you have been contacted by the ITC and given your password verbally, go to http://echo360.utm.edu/ and sign in using your full UTM email as the User Name and the password as assigned by the ITC.

From the echo360.utm.edu screen in your account, choose the Downloads tab. Choose the link "Installer for EchoSystem Software Capture (Mac OS X).

Save it and Run it: You'll get the Wizard; agree to all, etc.

If you still have an older install version on your computer, you may need to re-install to avoid a message prompting you to re-install every time you open PCAP.

In Personal Capture (PCAP), choose Start Capture to select your options for recording. Be sure to check Enabled on the web cam if you have chosen to use the web cam. The image will appear on the right. Start Capture to begin. Note the announcement that recording will begin in a few seconds. You must record at least 15 seconds if trying it out. Note that the primary screen will be recorded (no exterior screens will be recorded).

Once you have recorded as desired, note that you can do some editing before you publish your recording. When you are ready to Publish, click Publish Recording. Login to Echo360. A list of the courses that are set up to receive the recordings will appear. You can only publish to one course at a time. Choose the desired course and "Next." Continue clicking "Next" - use the default Product Group unless you know you want Audio only. Continue through the steps. The title is the last step. The publishing process cannot be stopped at this point. Contact the ITC if you want the published recording to be deleted.

Documentation is at: http://confluence.echo360.com/display/54/Personal+Capture+Guides

Please call the ITC, 731-881-7877 if you have any questions.
