The College of Agriculture and Applied Sciences offers Bachelor of Science degrees in four majors: agriculture, geoscience, natural resources and family and consumer sciences. Students can also obtain Master of Science degrees in either agriculture and natural resources or family and consumer sciences. Students have opportunities to be involved in both limited and applied research to benefit not only the university but the surrounding region as well. The college is dedicated to providing its students with hands-on, practical learning opportunities.

Programs of Study

Agribusiness
Agricultural Engineering Technology
Agricultural Science
Animal Science
Environmental Management
Farm and Ranch Management
Geology
Geography
Meteorology
Natural Resources Management
Park and Recreation Administration
Plant and Soil Science
Soil and Water Conservation
Wildlife and Fisheries Biology

Pre-professional programs:
Biosystems Engineering
Forestry
Veterinary Medicine
The UT Martin Collegiate FFA chapter was named top collegiate chapter in the state for seven consecutive years, 2005-2011. Four FFA state officers will attend the university starting in fall 2012.

UT Martin is one of fewer than 30 institutions nationally offering four-year academic preparation in the area of Veterinary Health Technology. This provides career opportunities in veterinary practices, animal hospitals, animal research and zoos.

The geosciences major at UT Martin offers a meteorology concentration, the first of its kind in Tennessee.
